“8th International Yoga Day”

21st June 2022, Tuesday

Introduction:

Yoga in India is considered to be around 5,000 year old mental, physical and spiritual practice. Yoga originated in India in ancient times when people used meditation as a means to purify and rejuvenate the body and mind. After an initiative taken under the visionary leadership of Hon. Prime Minister of India, Shri Narendrabhai Modi, United Nations General Assembly has declared in Dec 2014, 21st June as an International Yoga Day and it is a matter of pride and joy for India to celebrate this day every year. The day was chosen as it is the longest day of the calendar year, a day connected with Sun, light, and nature and not a day of personal importance.

Objective:

Yoga embodies unity of mind and body, thought and action, restraint and fulfillment, harmony between man and nature, a holistic approach to health and well-being. Yoga is very necessary and beneficial for all human beings if it is practiced on a daily basis in the early morning. The International Day of Yoga is celebrated with an objective to let people know the amazing and natural benefits of yoga as well as to feel connected with nature and universal consciousness. Yoga also helps people in getting relief from stress, anxiety, and physical and mental disorders. Yoga Day celebrations bring communities much closer together to spend a day of health and harmony from a busy schedule which results in enhanced global coordination among people.
