

Introduction:

National Service Scheme (NSS) of Gandhinagar University works with an objective of making students aware regarding healthy living, social consciousness, stress management, building self-esteem, developing critical thinking & soft skills. In this regards Gandhinagar University organized a “Quiz on Agriculture” on 18/03/2023(Saturday) to make students aware about Agriculture and they can be ready to help farmers for the better development in the agriculture industry.

Objective:

Agriculture, with its allied sectors, is unquestionably the largest livelihood provider in India, more so in the vast rural areas. It also contributes a significant figure to the Gross Domestic Product (GDP). Sustainable agriculture, in terms of food security, rural employment, and environmentally sustainable technologies such as soil conservation, sustainable natural resource management and biodiversity protection, are essential for holistic rural development. Indian agriculture and allied activities have witnessed a green revolution, a white revolution, a yellow revolution, and a blue revolution. The G20 initially primarily focused on significant macroeconomic challenges, but it has since expanded its agenda to cover themes including climate change, sustainable development, health, agriculture, and anti-corruption.

Program Overview:

In this regard, the National Service Scheme Unit of Gandhinagar University organized a “Quiz on Agriculture” on 18th March,2023 to engage young minds on the topics related to climate change, sustainable development, health, agriculture, and anti-corruption which were focused in G20. The students were given a platform through Quiz, and it helped them to make them aware about topics related to agriculture. All the participants were incredibly enthusiastic. The main objective of this competition was to make them aware regarding agricultural needs and they can be ready to help Farmers for the better development in the agriculture industry. The whole event conducted by Prof Tejas shah (Coordinator, HCC) under the guidance of Dr H N Shah (Director, GIT).
